Appropriate Time For Listening:

What The Artist Has To Say:

“It was a real collaborative effort, but the hard part is trying to make it cohesive.” - Gary Tanin, OnMilwaukee.com, August 2, 2004.

What We Have To Say:

"Dog Eat Dog" is a musical collaboration by Gary Tanin and Toshiyuki Hiraoka, as well as several musicians from the Milwaukee area. There are remnants of fifties sci-fi soundtracks, sixties psychedelia, seventies funk, eighties power pop, electronica, and generic blues based rock riffs, as well as bits, pieces, and influential references from the likes of Frank Zappa, Tom Waits, the Rolling Stones, Todd Rundgren, and Steely Dan.

By incorporating such a wide array of influence into the compositional makeup of the music, the genre hopping aspects of the CD provide some exciting and unexpected turns along the way. The high level of musical expertise by the hired guns on the CD, as well as the clever arrangements, encourages multiple listening sessions and provide a cohesiveness throughout.

Provocative and entertaining, Dog Eat Dog will keep you guessing all the way through.
